

GIVE EDUCATION & HEALTHCARE A REAL CHANCE

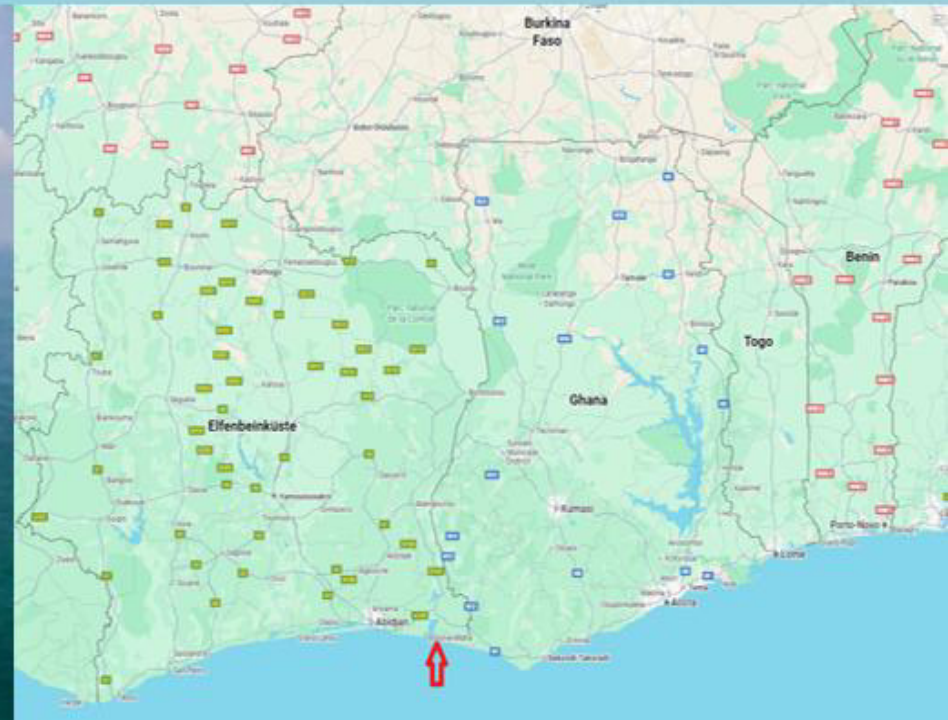

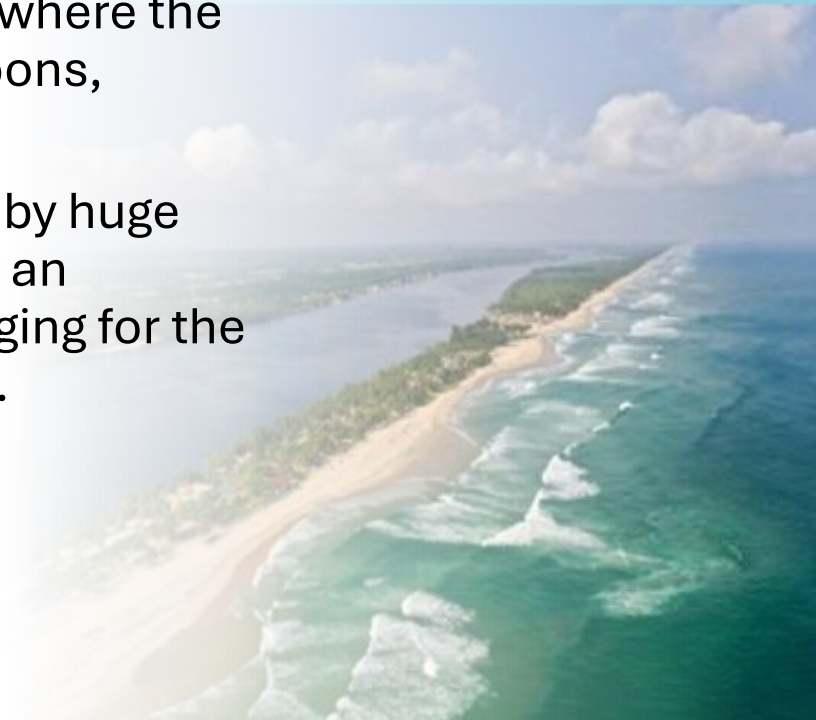

ASSINIE MAMA

- **Education & healthcare for a strong community**
- A humanitarian project in Assinie Mafia (Côte d'Ivoire)

ASSINIE MAMA: TRAPPED IN BEAUTY

- Assinie is a true paradise on earth.
- Assinie consists of many tiny, enclaved villages is and nestled along the coast of Côte d'Ivoire, where the Atlantic Ocean meets lagoons, beaches and pure nature.
- Despite being surrounded by huge natural resources, living in an enclaved region is challenging for the everyday life of the people.

ASSINIE MAMA

THE CHALLENGE OF LIVING ON A PENINSULA

Assinie Mama lies in an enclave on a peninsula.

- This geographic location makes access difficult to: schools, healthcare, energy and basic infrastructure.
- Those most affected are children and pregnant women. What should be accessible remains out of reach for many.

THIS IS WHAT THE SCHOOL LOOKS LIKE TODAY

Children deserve more than this. We can change that.

A SCHOOL. A HEALTH CENTER. A MIDWIFE.

The project “Assinie Mama - Education and Health for a Strong Community” focuses on three key measures:

- Renovation of the local school - safe learning conditions
- Rehabilitation of the health center - basic medical care
- Construction of accommodation for a midwife - continuous care on site

➔ Three measures. One goal: real opportunities.

18–24 MONTHS.

Phased implementation.

Continuous monitoring.

Phase 1 – Start & Foundation

Renovation of initial areas and provision of basic equipment.

Phase 2 – Strengthening Education

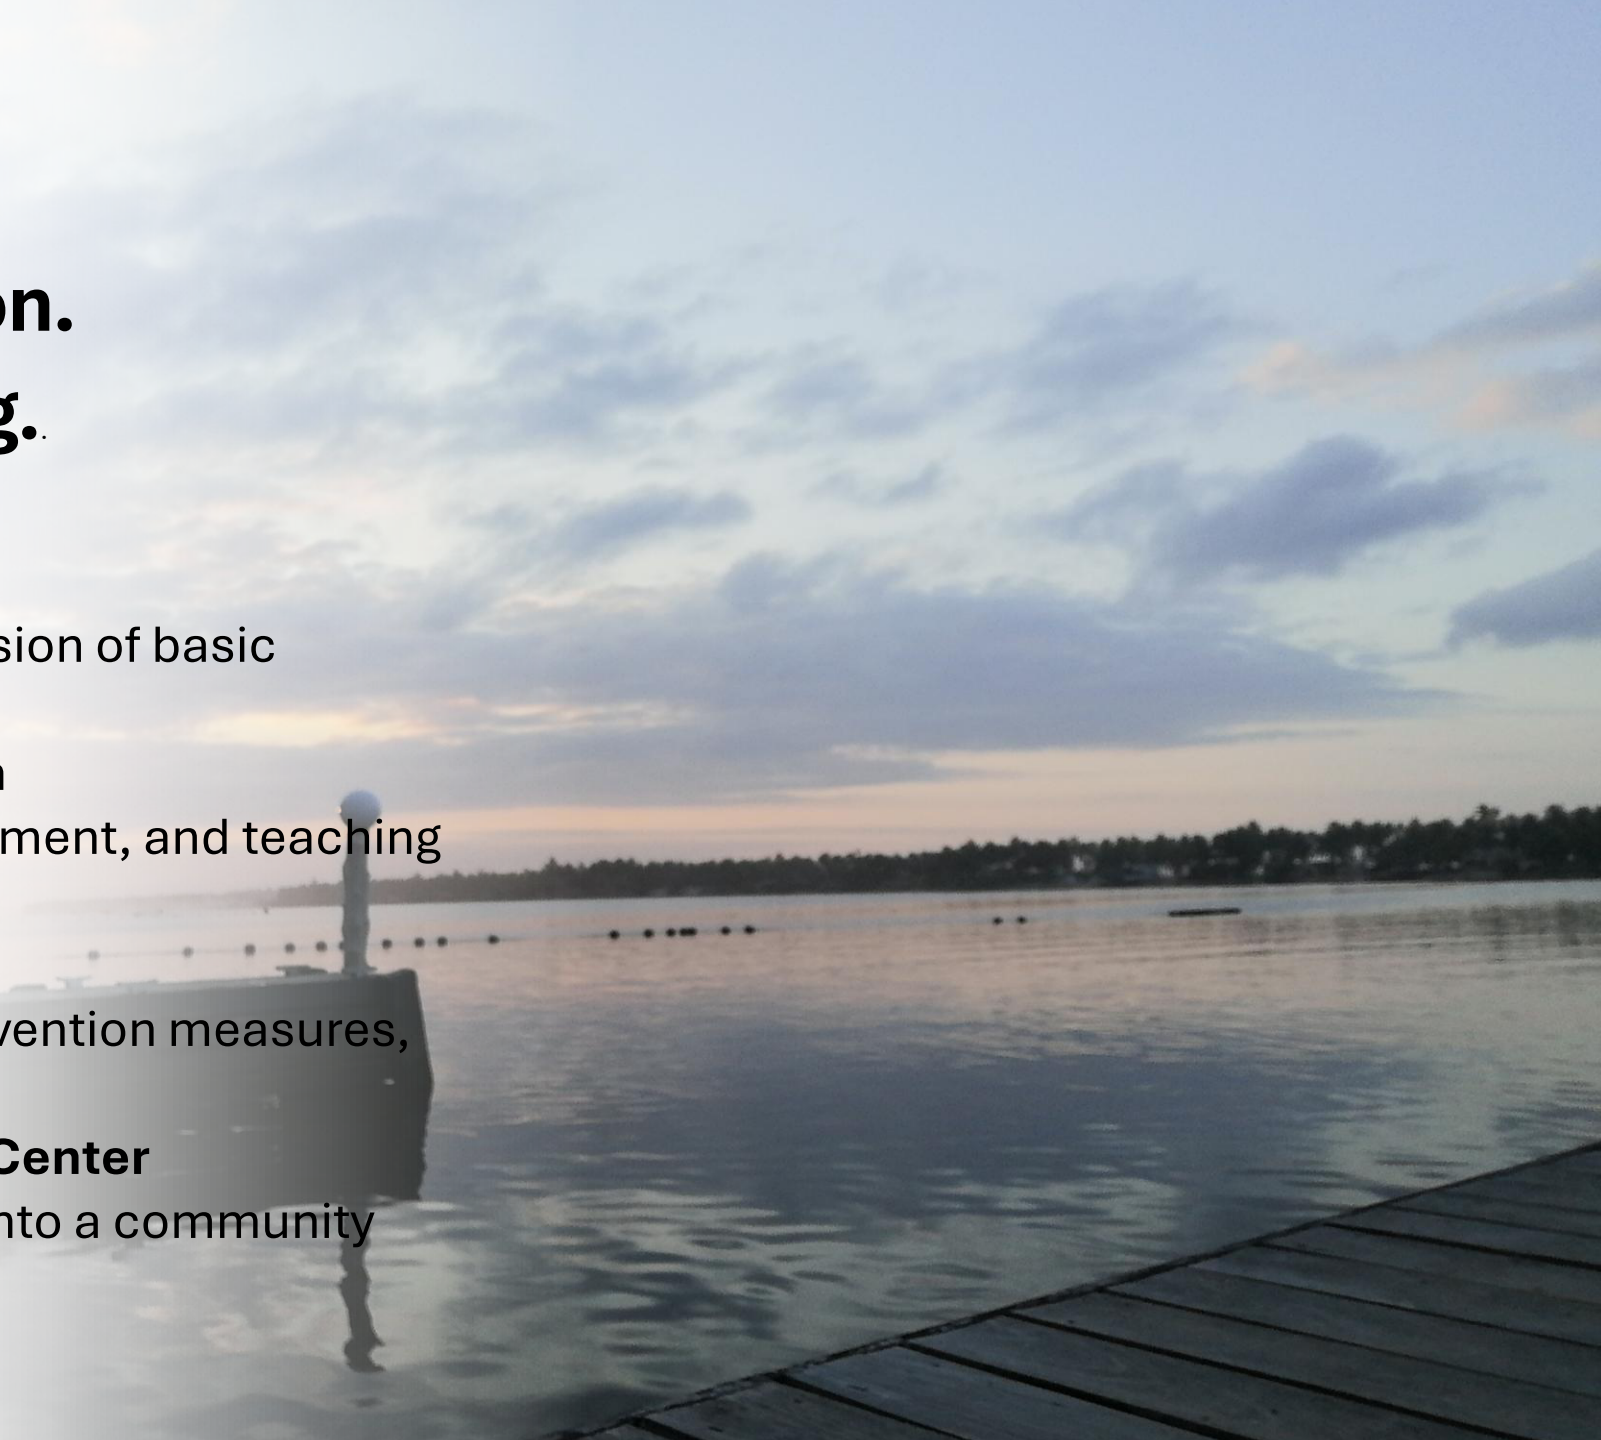

Expansion of learning spaces, equipment, and teaching quality.

Phase 3 – Securing Healthcare

Renovation of the health center, prevention measures, and midwifery services.

Phase 4 – Expanding the Learning Center

Further development of the school into a community learning center.

YOU SEE WHAT YOU'RE CHANGING.

Project tracking via QR code → dedicated project website.
Documented: photos, videos, milestones, updates from the community.
You don't donate blindly — you see every step.

This is what it could look like soon.

HELP THAT LASTS.

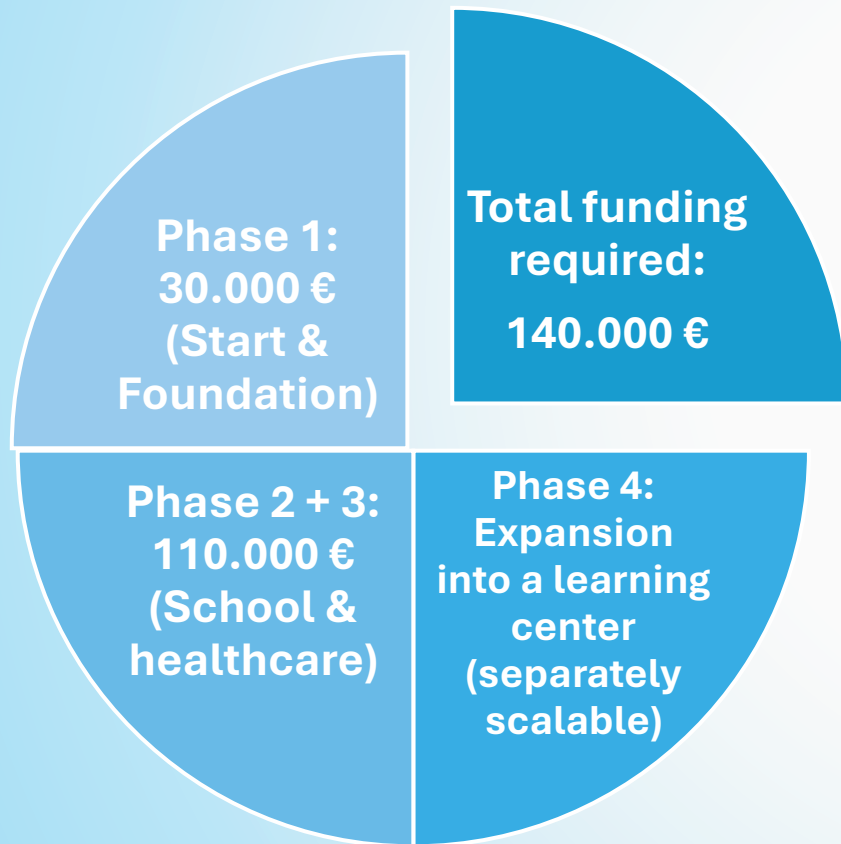

**Assinie Mama is not a short-term aid project.
The focus is on:**

- community involvement,
- long-term structures,
- renewable energy (e.g. solar, where appropriate).

Goal:

- stable access to essential services
- long-term independence
- help that works — today and tomorrow.

WHAT WE NEED - AND WHAT YOUR SUPPORT MAKES POSSIBLE.

What your support changes in concrete terms:

- **€25** - A child can attend school regularly
- **€50** - Illness and absenteeism are reduced through hygiene and prevention
- **€100** - Learning takes place in a safe, stable environment
- **€500** - A classroom becomes usable again
- **€1,000+** - A school or healthcare area is sustainably improved

Every contribution is part of a visible change.

TEAM & RESPONSIBILITY

This project is driven by people who take ownership.
